

Herpetology BINGO

Presented by AmphibiaWeb

To win BINGO, get five squares in a row (horizontal, vertical, or diagonal) by talking to the people at this event. If this is a very large group, we may change the rules to try to get ALL 25 squares. When you've reached your goal, yell "BINGO!" for accolades and possibly a prize.

| Studies hearing Name: _____ | Has written a species account for AmphibiaWeb Name: _____ | Owens more than 10 amphibian t-shirts Name: _____ | Has bled while collecting amphibians Name: _____ | Has climbed a tree over 5 meters high to find an amphibian Name: _____ |
| Has at least 5 herpetological images in their home or office Name: _____ | Has licked, consumed, or tasted an amphibian Name: _____ | Studies salamanders Name: _____ | Has a partner or family member(s) request herp tours while on vacation Name: _____ | Has observed amphibian courtship in the field Name: _____ |
| Studies behavior or movement Name: _____ | Has or planning to get an amphibian tattoo Name: _____ | Has named a higher-level clade Name: _____ | Has had a partner or family member be their field assistant Name: _____ | Has gotten stuck in mud/a pond while trying to catch amphibians Name: _____ |
| Studies tadpoles or larvae Name: _____ | Wrote an AmphibiaWeb species account "before it was cool" Name: _____ | Has held a cane toad (<i>Rhinella marina</i>) Name: _____ | Is attending their first herp conference Name: _____ | Studies caecilians Name: _____ |
| Has named an amphibian genus Name: _____ | Has written something about amphibians for a popular science outlet Name: _____ | Has attended a SALTA Workshop Name: _____ | Studies emerging diseases Name: _____ | Specializes in _____ lineage Name: _____ |

Two truths and a lie

Think or write down two true statements and one false statement, about yourself or an amphibian. Make sure these are statements you're willing to share with the whole group! We will call on or ask for volunteers to read their statements and then we will discuss and vote on which statement is a lie.

| Simultaneously held a caecilian, salamander, and anuran (live or dead) Name: _____ | Studies emerging diseases Name: _____ | Has named an amphibian species Name: _____ | Has held more than 20 amphibians at once Name: _____ | Is/has been an AmphibiaWeb steering/working group committee member Name: _____ |
| Studies tadpoles or larvae Name: _____ | Studies evolution of amphibians Name: _____ | Has at least 5 herpetological images in their home or office Name: _____ | Studies frogs and/or toads Name: _____ | Studies microbiomes Name: _____ |

Two truths and a lie

Think or write down two true statements and one false statement, about yourself or an amphibian. Make sure these are statements you're willing to share with the whole group! We will call on or ask for volunteers to read their statements and then we will discuss and vote on which statement is a lie.

1.

2.

3.

Other Notes/Games:

Herpetology BINGO

Presented by AmphibiaWeb

To win BINGO, get five squares in a row (horizontal, vertical, or diagonal) by talking to the people at this event. If this is a very large group, we may change the rules to try to get ALL 25 squares. When you've reached your goal, yell "BINGO!" for accolades and possibly a prize.
